

HELP CHOOSING YOUR OAK BEAM

We offer a choice of 3 shapes of oak beams in a range of 9 colours, your beam will be made to measure and fitted by us at the time of your installation. The beams are of excellent quality and are all hand crafted from scratch in the UK. Here is a guide of the options available to you:

CLASSIC

The Classic oak fireplace beam is the most simplistic design with a square clean edge, sure to instantly add a luxurious feel to your fireplace. It is the ultimate blend between elegance and rustic charm.

AGED

The Aged, rustic oak beam is one of the most popular fireplace beams in the range. Distressed edges and textured surfaces gives the appearance of a time worn, centuries old oak beam.

SHAPED

The Shaped oak fireplace beam has similar qualities to the Classic beam but with the Shaped beam the bottom edge is gently shaped giving the appearance of a natural edged beam.
